<https://www.asalhi.info/>

I am a researcher & a developer! I am specialized in the field of Natural Language Processing and Information Retrieval with many awards, founded innovate projects and academic publications.

I have 12 years in Natural Language Processing & information retrieval experience.

I have 12 years programming experience (Java, C/C++, Obj-C, Web Services & APIs).

I also have 8 years experience in STEAM (Science, Technology, Engineering, Arts and Mathematics) teaching, including educational robotics, electronics and engaging arts with science & engineering.

I have 7 years experience in mobile programming (android +iOS), I am also a lecturer, giving courses in computer science & management.

EDUCATION

Birzeit University

2009 - 2012

Master of Business Administration, GPA 87%

Birzeit University

2003 -2008

B.A, Computer Systems Engineering, GPA 82%.

PROFESSIONAL WORK

- **STEAM Ltd. for Innovation and Education** **May 2016 - Present**
Co- Founder and Director of R&D
- **Android/iOS & Java/Swift ToT** **May 2016 - Present**
JEST , The Ministry of Education, Schools

- **Robotics & Electronics ToT (Consultancy Services)** **Dec 2014 – Present**
Educational Counseling Center, MoE – Jerusalem
- **Robotics Trainer & FLL Coach (Part time)** **Feb 2014 - Present**
The Academy of Excellence “YOUiversity” - Jerusalem
- **Researcher & Senior Developer (Consultancy Services)** **Jan 2014 – Nov 2016**
Birzeit University, PS –MoHE Funded Project in the field of Arabic text and information quality.
- **Lecturer & Robotics ToT (Part Time)** **Sep 2013 – May 2016**
Wajdi University College of Technology – Jerusalem
- **Lecturer (Part Time)** **Sep 2013 – Jan 2014**
AlQuds Open University – Jerusalem Branch
- **NLP Researcher and Developer** **Sep 2011 – Aug 2014**
Academic Affairs Office , Birzeit University, Google Research Award & SIERA (FP7)
- **Trainer (Programming for Kids – Scratch) (Consultancy Service)** **Jul 2013**
Najjad Zeenni IT Center of Excellence.
- **Teaching & Research Assistant** **Sep 2008 – Aug 2011**
IT College, Birzeit University

AWARDS

- Winner of ALESCO “Arab League Educational, Cultural and Scientific Organization “ Mobile Apps Competition Award 2016 - 1st Place for Yorwa Search Engine App.
- Winner of “H.H. Sheikh Salem Al-Ali Al-Sabah Informatics Award 2013” for Yorwa Search Engine. - 1st Place.
- The Winner of 1st prize in **Mobily** (Saudi Telecommunication Company) **Mobile App Competition 2012**, under category "Best Mobile App Idea" for Yorwa android application.
- **Google Research Award** (with the supervision of Prof. Adnan Yahya) for the year of 2009. Research Topic: "A Suite of Automated Tools for Efficient Management and Search in Web-based Arabic Documents”.
- Awarded **1st prize in the Information Technology Student's Activity Fair (ITSAF 2008)** for the best graduation project (my project was Wojood, Arabic Search Engine and Aiding tools) , The Fair was held in July 23rd – 24th, 2008 in Petra University, Amman, Jordan.

ACHIEVEMENTS

- Shortlisted as a finalist in **MIT Technology Review Innovators Under 35 - MENA (IU 35 MENA)** for the year 2018.
- Selected in the honor list of the **best 100 personalities contributed to the publication of the Arabic language for the year 2018** through the **International eTurn Council**.
- Selected in the honor list of the **1st National Forum for Creativity and Leadership in Palestine - 2016**

PUBLICATIONS

- Ali Salhi and A. Yahya "**Document Similarity for Arabic and Cross-Lingual Web Content**"; Arabic Language Processing: From Theory to Practice Book ,Chapter 10; Springer International Publishing, ISBN 978-3-319-73500-9 (March 2018)

SELECTED PROJECTS

ArabiTools: A free Java Based Library for Arabic Language Processing.

Arabi Tools includes free programming libraries that aims to motivate developers to use Arabic Language in their applications and products, the tools are distributed over different categories such as : Arabic verbs processing tools, People names processing tools, Arabic social media tools, Arabic text classification and Arabic Named Entities Recognition, Wikipedia processing.

Full details, please check: <https://www.arabitools.com/>

Yorwa: Arabic Search Engine for Socially Shared Arabic Proverbs (3 Awards)

Yorwa is a search engine dedicated to finding short quotes from social networks. Yorwa depends on algorithms that monitors public entries on social networks and extract Arabic quotes and proverbs.

Wojood: Arabic Search Engine and Aiding tools (2 Awards) – Partially funded by Google Research Award.

Wojood is a an Arabic Search engine, with designed APIs for Arabic search and query analyzing, APIs include basic searching and crawling , bookmarking and Arabic natural language processing for queries.

COURSES I TEACH

Robotics (Lego EV3, WeDo, MakeWonder, Cubelets, EdisonBots ...) & Electronics (LittleBits, SNAP Circuits & Arduino), Java Programming (Introduction, OOP & Data Structure) , Advance Programming (Mobile “Android/iOS” and Web Services), Data Structure , Programming for kids (Scratch , HoC, CodeCombat, CodeMonkey), E-Business, Project Management, Quality Assurance, Databases, Introduction to microeconomics, Purchasing & Inventory Management, Introduction to Sales Management, Digital Circuits, Real Time Systems.
